

You did not get the card distribution right. How should I introduce it?

ChatGPT

Apologies for the confusion. To properly introduce the card distribution for all four players, please provide the following information for each player:

North:

- Spades: [cards]
- Hearts: [cards]
- Diamonds: [cards]
- Clubs: [cards]

East:

- Spades: [cards]
- Hearts: [cards]
- Diamonds: [cards]
- Clubs: [cards]

South:

- Spades: [cards]
- Hearts: [cards]
- Diamonds: [cards]
- Clubs: [cards]

West:

- Spades: [cards]
- Hearts: [cards]
- Diamonds: [cards]
- Clubs: [cards]

Replace **[cards]** with the specific cards held by each player in the respective suits. With this information, I will be able to provide a more accurate bidding sequence based on the given card distribution.
